

In order to assist others in making the right decisions we built the world's largest database of medical centers running in vitro programs with egg donation. Any clinic providing perspicuous information on its standards, operations and costs involved is awarded a **Trusted Clinic Certificate** which proves its credibility.

The Trusted Clinic Certificate guarantees that all information about a given clinic available through EggDonorWorld.com is fully transparent, reliable and complete. It is awarded to every clinic which provides its information on EggDonorWorld.com in an accurate, exhaustive and transparent manner. It allows users to easily access high-quality knowledge about clinics and services of their interest.

EggDonorWorld.com verifies all data prior to certification
